In line with our reporting policy, the Net Asset Values are calculated taking the valuation of investments at bid close or last price, as the case may be. The Net Asset Values are unaudited, exclude accrued income for the current financial year and are stated after deducting prior charges.

Market value is the company's estimate of the fair value of its borrowings.

Par value is the nominal value of the borrowings less any unamortised issue expenses.

Total assets means total assets less current liabilities

All percentage distributions are of total assets

* 31 October 2005 figures have been restated, where applicable, in accordance with accounting changes detailed in the company's interim results announcement for the six months to 30 April 2006
